

I am writing about my K-LOVE station, that I hear locally out of Denver. I cannot impress on you enough how this station affects myself, and my entire family. I love that I can travel, or tell out of state friends and family about K-LOVE, and how we can all listen to the same radio station. Without having the station locally, I would be limited to listening on-line and only at work. I would not be able to tell friends and co-workers to simply turn their dials to 91.1 FM. The station has such a positive message - something this society is in great need of hearing. Not only do I listen to K-LOVE, but I have helped financially to fund the on-going ministry of the station. I will admit that this city is fortunate to have several christian radio stations, but no other is like K-LOVE. Wherever I am, I know that I can hear good music, with a positive message, 24 / 7. Please do not take away my local K-LOVE broadcasting.
